

Indonesia and South Korea have jointly set up the Green Business Center as a project in which both cooperate to develop green cooperatives, small and medium scale enterprises.

A non-profit organization, GBC has been providing SMEs with communities of socially and environmentally conscious businesses, a locale for connecting, sharing, deal-making and networking.

In the future, GBC will become the center of entrepreneurship development and technology transfers, and will boost business partnerships between the small and medium business of Indonesia and South Korea as well as other neighboring countries.
